

## ANNIE LAURIE GOLD

Splendid Body of Ore Disclosed in the Mine.

## TO BUILD A WAGON ROAD

FROM THE MINES TO THE R. G. W. RAILROAD.

Checkmate Mine—Regular Shipments Being Made From This Property—Lake Tahoe Mines—New Gold District Discovered in California—Spurt in Chloride Point—Quotations Well Maintained By Leading Securities—Mammoth Record Jottings—Resumption at Leadville—Ore and Bullion—Silver and Lead—Mining Notes and Personals.

R. F. Caffery, of Castle Gate, who has been in the city the past few days as a representative of his ledge of K. of P. to the grand convocation, which has been in session in Salt Lake during the present week, returned home yesterday.

Mr. Caffery is the secretary of the Annie Laurie Mining company, operating in Gold Mountain district, the stock of the corporation being very largely held by residents of Castle Gate and Scofield, and these shareholders are jubilant over the splendid condition of the mine, in which, as stated previously in these columns, a splendid strike has been made of face, the ledge, according to Mr. Caffery, being all of 29 feet in width and well in place, the rock being all pay ore. Six feet of the vein will carry average values of \$150 in gold to the ton, while through this immense body of mineral there is a streak of 14 inches which will average \$200 in the yellow metal to the ton, and as work progresses in the exploration of the deposit there is seemingly no end to its dimensions, the find being but a quarter of a mile from the Blue Bird, owned by the Golden Star, and it is believed that the Annie Laurie discovery is on an extension of the Blue Bird vein, or vice versa, as it would appear that the Annie Laurie has the big end of the ledge according to present indications, and Mr. Caffery says that it is "a fine same old mine" as it can be worked on a large scale and at a comparatively small expense.

When Mr. Caffery came up to the city the first of the week he brought in with him a ton of ore from the new strike in the Annie Laurie, which was sampled, assayed and sold, the return showing values of \$212.20 in gold and 54 ounces in silver to the ton, and he informs The Herald that as soon as the new wagon road from the mine down to the railroad at the Sevier V. is completed the company expect to make regular ore shipments, in which he will be joined by the Golden Star and the Mammoth.

The building of this wagon road was decided upon by the management of Annie Laurie, the Golden Star and the Mammoth a week ago, and today Captain Timothy Harty of the Golden Star will leave for Gold Mountain accompanied by Sam Paul, M. E., for the purpose of making a survey over the Narrows and up Mill Creek to the Annie Laurie mill, the terminus of the proposed road. Andrew McLean of Eureka, who is in the city, will accompany the captain, and a representative of the Annie Laurie company, while the two will meet James Long, Jr., of the Mammoth, on Gold Mountain, and the three will decide upon the route, and when the grade is determined upon active work will begin at once in the construction of the road, which, upon completion, will be a great convenience to the mine and claim owners of the district, as it will make it possible to market the ore of the district without the inconvenience and expense which has attended prior consignments, in consequence of which it is believed that the mines of the district will make great records for themselves this season.

## THE CHECKMATE MINE.

Regular Shipments Being Made From This Bonanza.

Regarding the Checkmate mine, in Willow Creek district, Idaho, in which Joe H. Young, Frank Chapin and other claimants are interested, the Pearl correspondent of the Boise Statesman says:

"Several very important projects have got under way in our district recently. The Checkmate company has been shipping ore for the past two months, averaging about one car per week, and not shipping a pound running under \$100 per ton in gold. About 30 days ago the mine was struck, and sunk about 100 feet deeper, and the drift run west therefrom, opening up a richer body of ore than found above this level. The drift is about 150 feet in width and is a body of ore considerably larger than in the upper workings.

The high grade and the quality of the ore in this mine, and the fact that it has been the means of inducing the owners to sink the shaft they have had in view the past year. Fifteen men are now employed by the company, and the shaft has been started. It is 435 feet in the clear, double compartments. The machinery purchased for the same is said to be capable of sinking to a depth of 1,000 feet. They expect to sink to a depth of 400 feet before any great effort is made to extract ore. The dry season will materially aid in sinking on this property.

Mr. Wyman has opened up two new ore chutes in the west drift. The shaft is being sunk outside the mine, and between the two last chutes. The shaft house will be completed this week. More men will be put on just as soon as possible. The mine is being worked by three eight-hour shifts. This mine can show a record that few mines can equal. The fact of the ore being more valuable in larger bodies in the mine below the water level is a great satisfaction to the citizens of this district, as it has been held by some that the ledge would not carry values below water line.

## SPURT IN CHLORIDE POINT.

Quotations Well Maintained By the Leading Mining Securities.

Chloride Point was the feature of the day's trading in the pit of the exchange yesterday, as it was in good demand and chronicled advances as well as sales for future delivery. In the listed stocks there was but little activity and the transfers in this class were few. Centennial-Eureka was very strong in the holdings, the lowest offering being at \$1.00, the closing stock was wanted in ten share lots at \$1.00. Dalton & Lark showed some improvement, while Four Aces was quite strong in the bidding and was firmly held. Grand Central was stationary but in good form at near the \$7 mark. Geyer-Marion was also a favorite and drew out earnest country at 31 cents, and bids at this figure falling to draw out any more of the stock. Mammoth was weak and dropped a board lot at \$1.00, the closing offering being at \$1.00. Northern Light was a ready seller at 2 cents, the only trouble being that holders were loath to sell at this figure. In consequence of which brokers with orders were unable to fill. Silver King touched \$20 in the bidding with the stock firm at \$20 in the asking. In the unlisted stocks Chloride Point

took the lead in the dealings, lots of 1,000 shares changing hands for future delivery at 95 cents and \$1.00, while a board lot made a transfer at 93 cents cash. Swanes and South Swanes fell off a trifle in the bidding, but were firmly held at the quotations of the previous day. Dexter advanced to \$1.12 1/2 in the bidding. The transactions of the day were as follows:

## SALE OF STOCKS.

300 Geyer-Marion at 31 cents.  
100 Mammoth at \$1.00.  
5,000 Northern Light at 2 cents.  
1,000 Chloride Point at 3 cents, buyer 60 days.  
1,000 Chloride Point at \$1, buyer 60 days.

## LAKE TAHOE MINES.

New Gold District Discovered in California.

W. A. Graves has returned home from Placer county, California. He is on his way to Denver, where he expects to close up some business matters in connection with the sale of several mining properties in which he is interested.

About 15 miles west of Lake Tahoe a new district has been opened up, which is very rich and of great extent of country. He has made three or four locations there, also a tunnel site. Besides this he has interests in other properties.

The ore is a free milling quartz, very rich in character, while the bodies are large and easily worked. Mr. Graves stopped over here, as a representative of the Annie Laurie company, while the two will meet James Long, Jr., of the Mammoth, on Gold Mountain, and the three will decide upon the route, and when the grade is determined upon active work will begin at once in the construction of the road, which, upon completion, will be a great convenience to the mine and claim owners of the district, as it will make it possible to market the ore of the district without the inconvenience and expense which has attended prior consignments, in consequence of which it is believed that the mines of the district will make great records for themselves this season.

## GOLD IN MONTANA.

Mountain of Ore Discovered on Blackfoot Reservation.

Butte, Mont., June 23.—A report from St. Mary's, the new town on the Blackfoot reservation, says that camp has been thrown into the wildest kind of excitement by the return of Prospector Lloyd from Kennedy creek with samples of ore that runs between \$6 and \$8 to the ton in gold. Lloyd claims that there is a mountain of it. A number of claims have been taken up and some of them are very promising. Rich placer ground has also been located, rich copper and coal veins have been discovered.

## Resumption at Leadville.

Leadville, Colo., June 23.—The first activity in the downtown mines since the long strike was observed this afternoon, when a force of men began cleaning up and digging holes for the winches at the Bon Air and Penrose mines.

This was begun the initial work of the Home Mining company, and within two weeks all preparatory work will be finished, and this company and the Leadville Pumping association will be ready to start the pumps in the downtown mines.

## Silver and Lead.

The silver and lead quotations yesterday were as follows:

Bar silver, 55 1/2 cents.  
Lead, brokers, 37 1/2 cents.  
Copper, castings, \$10.50.

## Ore and Bullion.

The ore and bullion receipts yesterday were as follows:

McCormick & Co., bullion, \$3,375; cyanide, \$4,700.  
T. R. Jones & Co., ore, \$4,500; bullion, \$5,500.  
National Bank of the Republic, Dexter gold bullion, \$5,600.  
Bamberger & McMillan, ore, \$3,132.

## Mining Notes and Personals.

Denham Blanchard, of New York, who is quite heavily interested in Utah mining enterprises, is in the city.

The Treatise Hill at Silver City, is now shipping about 50 tons of ore a week, and the mine is reported as looking well.

The advance in silver and lead quotations yesterday was hailed with pleasure by the metal producers of the state.

A lot of E. & E. ore, from near Bayhorne, Idaho, was received at the Pioneer sampler yesterday, consigned to O. J. Salisbury.

The last issue of the Mining and Scientific Press, of San Francisco, contained an illustrated write-up of the Pioneer sampler yesterday, consigned to O. J. Salisbury.

Messenger, Pioche, Nev.: Joe Douglas has started up the Peck concentrator at Leadville, and will make a thorough test of the big killing piles in that camp.

Hon. Dick Mackintosh, of the Pioneer sampling works, has returned from the south, where he has been on business connected with the Ireland Cattle company.

J. S. Lakin, who is quite heavily interested in the Dexter and Lark mines, left yesterday for the purpose of making an ore examination of this promising gold producer.

C. G. Hall is in from the Congor copper mine in the Dalton & Lark country, at 31 cents, and bids at this figure falling to draw out any more of the stock. Mammoth was weak and dropped a board lot at \$1.00, the closing offering being at \$1.00. Northern Light was a ready seller at 2 cents, the only trouble being that holders were loath to sell at this figure. In consequence of which brokers with orders were unable to fill. Silver King touched \$20 in the bidding with the stock firm at \$20 in the asking. In the unlisted stocks Chloride Point

## JUBILEE COMMISSION

Suit to Collect Subscription From Gus Holmes On Trial.

WILL AMEND COMPLAINT AND FURTHER HEARING POSTPONED WITHOUT DATE.

Colonel Woodrow's Answer In the Divorce Suit—Mrs. Cox Recovers a Verdict For \$1,500 Against the City—Verdict For Defendant In Rosenbaum vs. Barnett—Notes.

The suit in which Spencer Clawson, Jacob Morris, W. A. Nelden et al., acting as the semi-centennial or jubilee commission, sued G. S. Holmes, doing business as the Knutsford hotel, to recover \$200 and interest, the balance of a subscription alleged to be due to the jubilee fund was on trial yesterday. The defendant, it is alleged, in the complaint, agreed to subscribe \$200 to the fund, but paid only \$100, leaving a balance of \$100 due.

The defendant, July way of answer, denied that he agreed to subscribe \$200 to the jubilee fund, and further, that on May 12, 1897, he paid \$100 in full of a subscription to the jubilee fund. The case was originally tried before Justice McMaster, who gave judgment for the plaintiff, from which this appeal was taken.

Mr. F. B. Stephens appeared for the plaintiff and Judge Powers for the defendant. To begin with, Judge Powers objected to the introduction of testimony in the case, contending that the complaint was fatally defective, in that the allegations of the state legislature, authorizing and making an appropriation for the jubilee did not authorize the commission to go into a scheme to bring people to Salt Lake, or for the benefit of any citizen. The commission had no right to collect any more than the actual cost of the celebration.

Judge Cherry sustained the objections of Judge Powers and gave the plaintiffs ten days to amend the complaint, and the trial was continued without date.

Verdict For \$1,500 Against the City.

The case in which Mrs. Eliza Cox sued Salt Lake City to recover \$15,000 damages alleged to have been sustained by her falling on a snowy and slippery sidewalk, reached the jury yesterday forenoon, and after five or six hours' consultation a verdict for the plaintiff for \$1,500 was returned.

The city and one time have compromised this claim of Mrs. Cox for \$100, but the city council wouldn't entertain it.

Verdict For the Defendant.

In the case of H. Rosenbaum against Josiah Barnett, receiver of the firm of Simon Bros., the jury returned a sealed verdict yesterday morning, finding the issues in favor of the defendant, that he, as assignee, is entitled to the possession of the property, 240 cloaks, which the plaintiff sought to gain possession of.

Colonel Woodrow Answers.

The defendant in the divorce suit of Jennie Hawley Woodrow against Howard and Cromwell Woodrow, by his attorney, C. Whitmore, yesterday filed his answer, which is very short, simply stating that the defendant makes a general and specific denial of all the material allegations of the complaint.

Criminal Cases Set.

Criminal cases were set for trial as follows:

Monday, June 27—State vs. McHenry Scott, mayhem.

Tuesday, June 28—State vs. Charlotte E. Edwards, receiving stolen goods.

Thursday, June 30—John Hasb. appeal; state vs. C. H. Rock, fornication.

Short Orders and Notes.

In the case of Samuel McIntyre vs. the Ajax Mining company, a motion of the defendant to amend the pleadings was allowed, and the question of continuance left over until this morning.

F. K. Erath, a native of Germany, now a resident of Salt Lake, was admitted to citizenship.

The following petty jurors were fined \$2.50 each by Judge Norrell for non-attendance: Richard McIntosh, W. D. Kure, R. H. Dodge, James T. Clabey, J. A. Fritch.

E. Bonnett vs. William McQueen; dismissed on motion of plaintiff, at plaintiff's cost.

Lucinda A. Lebecher vs. George C. Lambert; motion for a new trial denied.

The Modern Beauty.

Thrives on good food and sunshine, with plenty of exercise in the open air. Her form glows with health and her face blooms with its beauty. ## THE MINING CONGRESS.

CENTRAL TRAFFIC ASSOCIATION PUTS IN A RATE.

Practically a Single Fare For the Round Trip—A Number of Additional Delegates Appointed.

A telegram from F. C. Donald, commissioner of the Central Traffic association, advises Secretary Johnson of the mining congress that the association has made practically a single fare for the round trip to the congress. The message reads:

"This association has granted for international mining congress one fare for round trip, plus \$4, subject to approval of Joint Traffic association, from Eastern terminals such as Buffalo and Pittsburgh. Selling dates, return limit and other conditions conform to arrangement Western Passenger association."

Interpreted, this means that from Buffalo and Pittsburgh west an open rate of a single fare, plus \$2, will be granted for the round trip to Salt Lake, whether to delegates or anybody else who may happen to want to come here at that time. It is supposed the tickets will be on sale at the eastern terminal on July 2, but announcement of that will be made later. Excursionists will be allowed five days in which to make the trip each way, 20 days for the round trip, a choice of routes returning from the committee on conference and adopted and further conference upon the remaining points in difference was requested. A large number of bills of minor importance were passed and 63 pension and relief measures were disposed of, pursuant to the recommendations reached last Friday in committee of the whole.

A bill directing the payment of not exceeding \$5,000 to Verona E. Pollock, widow of the late Consul A. L. Pollock, at San Salvador was passed.

Under the leadership of Representatives Cannon and Baker of Illinois, a bill to restore Major Wham to his former rank and status in the army with all back pay and allowances, passed the house unanimously. Major Wham, who was in the gallery at the moment, received congratulations from members on the floor of the house.

Upon Mr. Dingley's motion made early in the day, the house at 4:35 adjourned until Monday.

The statements of those who have been cured by Hood's Sarsaparilla prove the great merit of this medicine. Get only Hood's.
